This notification is for the purpose of designating a lead agency according to the requirements of Article 8 of New York State Environmental Conservation Law for the following proposed action:

Rockland County Comprehensive Plan

The Rockland County Comprehensive Plan update is a blueprint for the County's future that will provide guidance for future planning and zoning municipal actions and serve as the basis for all County government planning and development issues for the next 30 years. The plan will create a framework for future capital expenditure decisions by County government. It will also provide general recommendations on future County land use issues and policies to implement these strategies, address key matters under direct County jurisdiction, and identify specific land use and zoning conflicts among municipalities that should be resolved to allow for better functioning of zoning regulations.

If no written objections are received within 30 days of the above date of this notice, the Rockland County Legislature will assume the role of Lead Agency.
