Sanitary Sewer Main Extension Submission Requirements

Engineering plans for sanitary sewer main extensions in Rockland County must be submitted to and approved by this Department before any work is performed. The following information must be submitted for this Department to complete a review:

1. One (1) set of the required drawings. **Drawings are to be sealed/stamped and signed.**
2. A completed SAN-5 Form, signed by the future owner of the sewer system.
3. Downstream sewer capacity analysis.
4. A willingness to serve letter from the applicable purveyor if public water supply is to be provided.
5. A complete application including New York State form DOH-348, to be made through the water supplier, for water main extension (if applicable).
6. A “happiness” letter from the town, village or sewer district engineer reviewing the plans, stating that the design of the sanitary sewers and drainage for the project meets overall plans for public sewerage and drainage.
7. Proof that the project has received preliminary approval from the applicable planning board and proof that State Environmental Quality Review Act (SEQR) requirements were satisfied prior to the granting of preliminary approval.
8. A check payable to the Commissioner of Finance in the amount of the required fee of \$320.
9. County Planning Certification Form with required documentation.

If you have any questions or need current fees, contact Susan Conklin at (845) 364-2656.
