

# When Your Child Needs Just a Bit More Care

We provide families with resources to access services for their child(ren) with special health care needs. Children and Youth with Special Health Care Needs staff provide referrals and community resources to enhance your child's quality of life.

If your child is 21 years old and younger, have an increased risk for a chronic physical, behavioral, developmental, or emotional condition that requires additional health and related services, call us! We can assist you to connect with the special help you need.
